packed in cartons of 10 pc. 36 cartons are packed on one EURO-Pallet

**Bate Safe R
Monitor TT**

Unique keyless opening design. Bait is unreachable for small children, and best secured, when the station is fitted with screws or anchors. The patented no-floor section speeds up entry of rats, often by days. Includes rods to hold bait blocks, special screws and cable ties to further enhance safety.

BATE SAFE R „MBS“ BLACK
